*A World of Industrial Solutions & Service*

# SANITARY SOLUTIONS

**C. H. Reed integrates Graco's complete line of sanitary equipment. Recognized for over 75 years for their innovation, quality, design and durability, Graco pumps efficiently and ergonomically transfer sanitary materials from a broad range of viscosities. From cosmetics and shampoo to fudge and molasses, C. H. Reed's integrated solutions move any type of material quickly and safely.**

## Sanitary Double Diaphragm & Piston Pumps

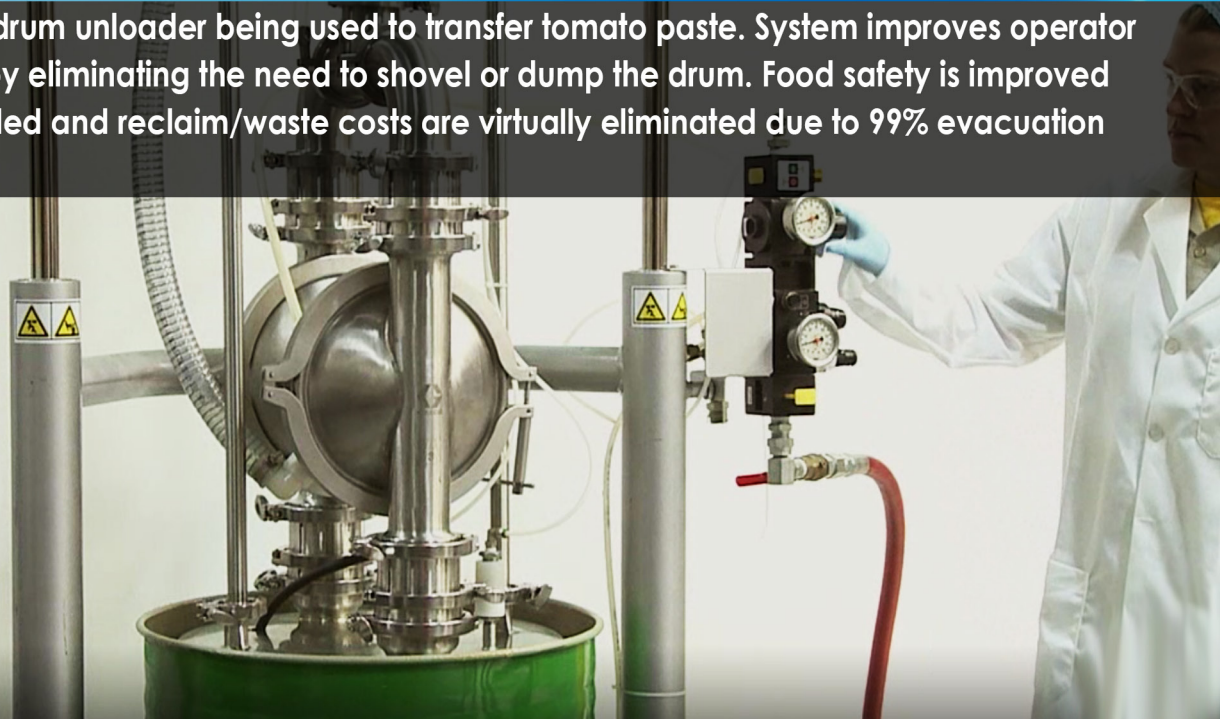

## Bin Evacuation Systems & Drum Unloaders,

## Sanitary Cleaning Packages

**CASE STUDY:** A sanitary drum unloader being used to transfer tomato paste. System improves operator ergonomics and safety by eliminating the need to shovel or dump the drum. Food safety is improved because the drum is sealed and reclaim/waste costs are virtually eliminated due to 99% evacuation efficiency of the system.

# PROCESS SOLUTIONS

**C.H. Reed's line of Graco Process Pumps are built for reliable performance, extended life cycles, and can handle corrosive, abrasive fluid transfer applications with ease. From gentle pumping action to your most aggressive applications; *C.H. Reed has the pumping solution for you.***

## Air-Operated Double Diaphragm Pumps

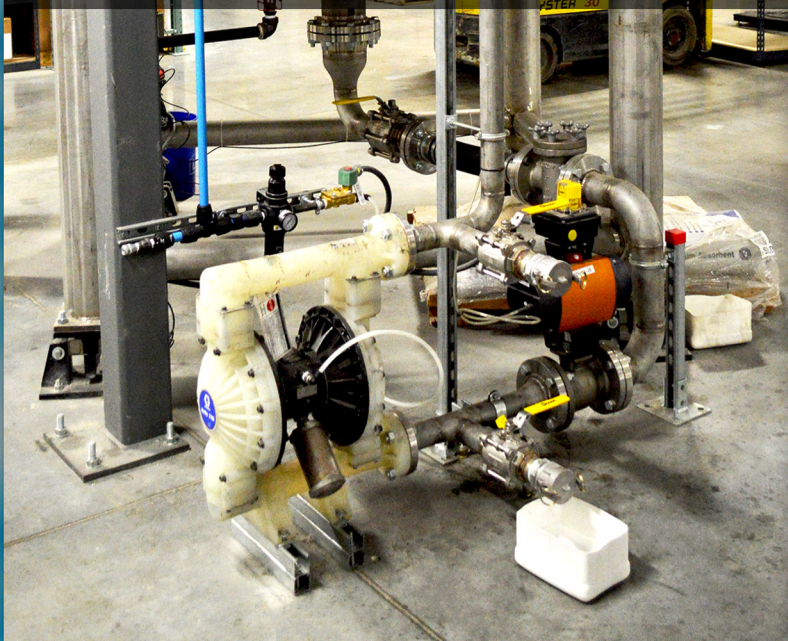

## Peristaltic Hose Pumps

## Piston Pumps & High Pressure Cleaning

**CASE STUDY:** A series of 2" Air-Operated Double Diaphragm Pumps used in transfer of liquid fertilizer from bulk tanks to packaging machines. Customer previously used gear pumps but had issues with leaking; creating an unsafe work area and high maintenance costs.
